Section 6

Accidental Release Measures

LEAK AND SPILL PROCEDURES:

Pick-up spills without creating dust. Place material into a dry container and cover. Hold in sealed container for disposal. Use personal protective equipment as required (See Section 8 - Exposure Controls and Personal Protection).

Section 7

Handling and Storage

HANDLING PROCEDURES AND EQUIPMENT:

Avoid inhalation of dust. Clean area frequently to avoid dust build-up. Wear applicable personal protective equipment as indicated in Section 8 – Exposure Controls and Personal Protection.

STORAGE REQUIREMENTS:

Store in a dry area in sealed containers. Keep away from incompatible materials such as interhalogens and strong acids. Avoid contact with water - product reacts exothermically with water to form magnesium hydroxide and heat/steam. Water contact in closed or restricted storage vessels may cause heat, swelling, and possible rupture of storage vessel.

Section 8

Exposure Controls/Personal Protection

Exposure Limits		
OSHA- PEL	ACGIH-TLV	Alberta-TWA
15 mg/m ³ (Nuisance Particulate)	10 mg/m ³ (Nuisance Particulate)	10 mg/m ³ (Nuisance Particulate)
5 mg/m ³	2 mg/m ³	2 mg/m ³
15 mg/m ³ (Total Particulate)	10 mg/m ³ (Total Particulate)	10 mg/m ³ (Total Particulate)

ENGINEERING CONTROLS:

Engineering controls may include process enclosure and/or local exhaust ventilation to maintain dust concentrations below allowable exposure limits. Local exhaust ventilation with or without process enclosure is important where large quantities are handled, as in bagging operations.

PERSONAL PROTECTIVE EQUIPMENT:

RESPIRATORY PROTECTION: If adequate engineering controls are not available, wear respirator approved by NIOSH/MSHA for dusts/mists, as applicable. If magnesium oxide fume is likely to be produced then ensure that a NIOSH/MSHA respirator approved for fumes is used. In conditions of oxygen deficiency, or where airborne concentrations exceed 100mg/m³, wear positive pressure or pressure demand supplied air respiratory protection or SCBA.

EYE/SKIN PROTECTION: Wear safety goggles in high dust concentrations, unless full face-piece respiratory protection is worn. Wear coveralls.
